

Every recovered dollar, tied to its claim, ready to share with the owner

Results is the recovered-dollar ledger: every payment, tied to the claim that brought it in. The owner report sums up the month with totals only, so it's safe to send to the dentist or your accountant.

Proof of every dollar

Date, insurer, patient, codes, the reason it was stuck, and the amount recovered.

One-page owner report

Recovered, pending, likely recoverable, underpayments, card fees and time saved.

No patient names

The report is totals only. Copy it or print it.

Before you start: create your free account at app.owedex.com (Guide 0, about 2 minutes). You land in Owedex's demo office, **Bluebonnet Family Dental (made up)**. Every patient, claim and dollar in it is made up, so you can try everything without your own data.

The pictures were taken on Wednesday, October 7, 2026. The demo's dates move with today's date, so your dollar amounts and dates will be different. The steps and screens are the same.

What Owedex costs

Owedex cost \$152 (pilot: 25% of recovered (demo)) and recovered \$608 (4x what it costs).

\$456 more in your account than without Owedex.

Pending and recoverable are as of Oct 7, 2026. Owedex can't see a denial that never happened, so it shows the checks and the repeat denials instead of a "prevented" number.

Estimate: 6 min to sort each claim, 1.5 min to match each payment line, 15 min to write each letter by hand.
